

**Accessibility Policy for Disabled students or
Students with a diagnosed learning difficulty**

20/11/2023

Our commitment :

Our training center is committed to providing an inclusive and accessible environment for all people, including students with a diagnosed disability or learning difficulty. We recognize the importance of equal opportunity and strive to ensure that all individuals can fully participate in our training programs.

Our objective :

The objective of this policy is to make sure all our courses are accessible to anyone wishing to join our training centre.

Accessibility Measures:

• Physical Accessibility:

We are committed to providing an accessible physical environment for all, ensuring that our facilities comply with current accessibility standards.

• Staff support:

All staff will be guided to answer various accessibility questions and to better understand the needs of disabled students in order to provide appropriate support.

• Access to Information:

We will ensure that the material and information related to our training programs are adapted accordingly. When this is not possible, we will request support from the MDPH or Agefiph to try to put them in place.

• Information and Communication Technologies (ICT):

The technologies used in our center will be chosen and configured so as to be accessible to everyone.

• Personalized support :

We will offer personalized support to disabled students or students with diagnosed learning difficulties to meet their specific needs.

• Regular checks:

We will regularly solicit feedback from disabled students in order to continually improve our training programs and accessibility services.

Our responsibility:

Each member of the our team is responsible for implementing this accessibility policy in their area of expertise.

We are committed to respecting this policy and constantly working to improve accessibility to ensure that everyone has a positive experience at our training center.
